

BRINGING VISIBILITY AND CONTROL TO YOUR TOTAL SUPPLY CHAIN

About Us:

BridgeNet Solutions (BridgeNet) is a full-service data analytics provider that specializes in Web-enabled data solutions for optimized supply chain management. By designing, developing, implementing, and managing end-to-end data analytics solutions, we empower our clients to leverage the results of optimized supply chain and logistics operations in order to achieve greater savings.

The BridgeNet Advantage:

- Founded in 2001.
- Clients have achieved annual transportation cost savings of up to 40%.
- We maintain excellent working relationships with all carriers.
- BridgeNet is an ISO-certified company; our processes and products have been held to a true standard of excellence.
- BridgeNet's executive team is made up of experienced data analytics, supply chain operations, and logistics professionals you can trust.

Who We Serve:

BridgeNet provides supply chain solutions to companies around the world in order to help them identify, implement, and monitor cost-saving opportunities. BridgeNet provides these solutions to corporations worldwide in the following industries: Healthcare/Life Science, Medical/Pharmaceutical, Consumer Products, Manufacturing, and Distributing. Our suite of solutions enables our clients to determine the least costly ways to ship. Clients are able to make cost-saving decisions using real-time data that empowers them to uncover issues, create custom solutions, and ensure compliance. By comparing their company's unique shipping practices against those of other corporations, BridgeNet is able to help clients achieve the lowest possible shipping rates without compromising service levels.

Our Solutions:

Xonar®

Manage complex supply chains with Xonar®, the network spend data analytics and planning solution that uses advanced optimization technology to give you a global view.

Logistics Expense Analysis

Optimize your supply chain through a comprehensive assessment of your shipping processes and practices, then benchmark your unique shipping characteristics and compare them to best-in-industry standards.

Carrier Exceptions Management

Uncover potential audited savings through the in-depth analysis of invoicing, method of payment, and shipper- and carrier-caused exceptions.

Our Capabilities:

- Shipment Aggregation
