

ENABLING SUPPLY CHAIN PROFESSIONALS TO MANAGE COMPLEX LOGISTICS NETWORKS FROM ANYWHERE IN THE WORLD

## Xonar®

Manage complex supply chains with Xonar®, the network spend data analytics and planning solution that uses advanced optimization technology to give you a global view.

### Xonar® Enables You To:

- Control and reduce costs through high-level data analytics, market intelligence, and cutting-edge technology
- View your entire logistics network 24 hours a day from anywhere in the world via the Web
- Gain a complete understanding of your total supply chain expense
- Monitor every shipment in your supply chain, regardless of mode or location
- Perform quick analyses of your transportation costs using real-time data
- Make optimal network configurations based on best practices
- Compare your shipping characteristics against those of thousands of other companies
- Create custom supply chain solutions through:
  - enhanced benchmarking capabilities
  - routing guide compliance and real-time alerts
  - automated alternative service and mode selection
  - shipment consolidation capabilities
  - line-item detail reporting and audited revenue recovery

Do you have a **global view** of your company's shipments?

Do you have **complete control** over the cost of each shipment within your supply chain?

Does your team **follow** your company's logistics guidelines?

Xonar® is a network spend data analytics and planning solution that uses advanced optimization technology to manage the world's most complex supply chains. This powerful solution enables supply chain professionals to perform quick analyses and assessments of their global transportation costs and service requirements, as well as calculate the optimal network configurations for different cost and service objectives.

## Xonar® Tabs

### KPI

This main tab contains the most important data pertaining to your global supply chain and displays it in Key Performance Indicators (KPIs) that allow you to monitor and measure various aspects of your logistics network.

### Vendor Management

This tab contains all of the information needed to monitor issues and tasks by vendor, and shows the resolution status of each item.

Vendor Name	Issue Description	Status
Vendor A	Issue 1	Open
Vendor B	Issue 2	Resolved

### Information

This tab is a one-stop location for all documents, carrier contacts, and any other information you need pertaining to your carriers and entire global supply chain network.

### Initiatives

This tab is used to monitor the progress of both internal and external initiatives and projects.

### Reports

This tab contains all of the individual reports that will give you visibility of your expenses and a wide range of shipping characteristics on both a static and ad hoc basis.

### APDetail
