

The Global Leader in Healthcare and Life Science Supply Chain Logistics

Our Business Advantages

BridgeNet Solutions is dedicated to providing customized, innovative and cost effective supply chain solutions to healthcare organizations worldwide. Our primary focus is to identify, implement and manage continuous cost reduction strategies for our client's end-to-end logistics network. This is where the "consulting" stops, and BridgeNet begins. Our current clients are realizing 10% to 40% annual savings throughout their global transportation networks.

BridgeNet Solutions has the ability to receive electronic data feeds for all modes of transportation, data formats, and domestic and international carriers via our global visibility dashboard for supply chain management. These four components empower organizations to optimize their global supply chain networks for Budget Forecasting, Demand Planning, Supply Chain Management, Global Cost Visibility, and benchmarking for Transportation Compliance. Management, Global Cost Visibility, and benchmarking for Transportation Compliance.

A Case Study for Healthcare and Life Sciences Client

Our Fortune 500 healthcare client: A global manufacturer and distributor with an annual transportation spend of \$98 Million USD. BridgeNet Solutions total global cost savings: Projected at \$21 million (21%) annually.

LOGISTICS EXPENSE ANALYSIS

- **Phase I/Parcel:** Total reduction in transportation spend for global parcel shipments worldwide, including 16 divisions. This encompasses data collection, analysis, and shipment characteristics restructuring, allowing for a global RFP. Our project managers conduct and monitor compliance factors for all cost reductions through implementation to actual realized savings.
- **Phase II/LTL, TL, Ocean and Air Freight:** Total reduction in transportation spend for LTL, TL, Ocean and Air Freight shipments worldwide, including 16 divisions. This encompasses data collection, analysis, and shipment characteristics restructuring of tariffs and freight forwarding for a global RFP. Our project managers conduct and monitor compliance factors for all cost reductions through implementation to actual realized savings.

CARRIER EXCEPTIONS MANAGEMENT

- **Phase III/Auditing and Reporting:** Total reduction in transportation spend for all global shipments worldwide, including 16 divisions. Automatic recovery of funds and return on revenue due to comprehensive auditing and reporting management.

XONAR®

- **Phase IV/Cost Visibility and Compliance:** All modes of transportation imported into a central repository database, providing a dashboard with advanced features: exceptions/event management, compliance, internal alignment with all business entities, trends analysis, forecasting and demand planning, and business process management for proactive cost initiatives selection based on projected savings.

Please contact our Director of Healthcare and Life Science Solutions for a **FREE, NO-OBLIGATION** supply chain logistics analysis of your total transportation network.

“Partnering with BridgeNet, Stryker has had nothing but the ultimate positive experience. Their professionalism, services, and results have exceeded our expectations. BridgeNet has aided us to leverage our freight not only on a divisional level, but on a global level, saving our company over \$16mm.”
