

BridgeNet Solutions: The Global Leader in Supply Chain and Logistics Analytics

ABOUT US

BridgeNet Solutions is a full-service data analytics provider. We bring full visibility to your current total logistics network. Our core competency is driving efficiency and compliance while reducing cost on your transportation expenses.

THE BRIDGENET ADVANTAGE

- A global supply chain data analytics company
- Incorporated in 2001
- Headquartered in Chicago with 40 employees
- All modes of transportation; LTL, FTL, Parcel, Ocean Freight, Air Freight, Intermodal and Courier
- Carrier neutral and are compatible with all global carriers
- Extensive list of customers in the Fortune 500 and Global 2000 across all industries
- 150 current clients, the majority of whom are made up of multiple segmented business units
- Process Transparency
- Gain share model on actuals, not estimates
- Flexibility and expansive reach

BRIDGENET'S A LA CARTE SUITE OF SERVICES INCLUDES

- Market Intelligence Analysis
- Benchmarking rates
- Managing carrier RFP's
- Auditing of carrier invoices
- Monitoring compliance both on the company level and vendor level
- Consulting Projects
- Spot Quote and Rate Quote web-based tools
- Forming logistics councils across mutli division companies

HOW DO COMPANIES ENGAGE WITH BRIDGENET

Free Carrier Data Analysis

- BridgeNet's analysts perform test analysis on your carrier data to uncover savings opportunities
- Gone is the guesswork of contract analysis, rate negotiation and carrier strategy

Implementation

- After presenting the test results, various scenarios are offered that best fit your supply chain's needs
- A customized plan is developed and a Project Manager supervises each step of the timeline

Results

- On average, our clients achieve 10-40% reductions in their annual transportation spend
- Monthly reports provided with detailed, verifiable savings
- A variety of fee structures are available

“ During a recent wrap up meeting with the CFO of a large multi segmented company where we had just saved his company over \$2.5M in the first year, he stated, “We always talk about doing initiatives like this, but it’s not often that we see them through to fruition.” The total amount of time, including all meetings that this CFO spent on this project was less than 15 hours in over one year. That meant 15 hours for \$2.5M in savings. ”
